

Upscale Your Technology Event

wicket | rainfocus

Elevating the Attendee Experience

Deliver a *sensational* first impression of your event with **RainFocus** and **Wicket**. RainFocus simplifies and optimizes every in-person, virtual, and hybrid event. Wicket Facial Authentication technology is fully integrated into the RainFocus platform, allowing attendees and staff to safely pair their credentials and IDs with their face.

EMPOWER YOUR TEAM

Wicket's proprietary, privacy-first Facial Authentication algorithms are built into a web-based platform that verifies attendees, staff members, and guests in less than a second, making entry and access management secure, frictionless, and convenient.

Opt-in only technology

300ms decision-time

Easy sign up integrated into the existing RainFocus registration workflow

Customer-owned data

99.76% technology accuracy

Deployment is fast, simple, and does not require large capital investment

Effective with facial hair, hats, glasses, and face coverings

ABOUT WICKET

Wicket is a privacy-first facial authentication platform provider that enables sensational event experiences for attendees, guests, and staff members with frictionless touchpoints that delight users and strengthen security for conferences and live events.

IMPACT

4x Faster Check-in

<1 SEC To Verify Guest Credentials

75% Reduction in Event Ingress Lanes

BENEFITS

Happier Attendees

Attendees spend **less time** waiting in line and more time at the event

No Badge Sharing

Minimize badge sharing and minimize losses in revenue

Improved Security

Increase **accountability** for those entering event

Ready to Deploy

Complete solution proven across multiple facilities

Joint Solution Use Cases

Express Check-In

Eliminate long check-in lines and optimize your event space by reducing both the time and space required for on-site check-in.

Session Access

Verify the identity of individuals trying to access your conference sessions and limit badge sharing.

Staff Credentialing

Increase accountability at events by ensuring only the people with the right credentials can enter restricted areas like conference rooms.

Access Control

Reduce the risk of non-attendees and unknown individuals gaining access to your event areas, such as buildings or rooms.

Faster badge printing—connect Wicket to your system printers

Take back check-in space and optimize required workstations

Redeploy staff and optimize space and equipment use

Timestamp session attendance for accreditation

Session-based credentialing to limit session attendance

Personalized activations for attendees

Time-boxed entry—know the when and who is in the building

Restrict and manage access to sensitive areas

HOW IT WORKS

- 1 Sign-up & Opt-in**
During the registration workflow for a RainFocus event, attendees can opt into Express Check-in.
- 2 Photo Upload**
After opting in, attendees are directed to a photo upload page, where they submit a selfie.
- 3 Show Up**
Attendees show up to the event, and show their face to a Wicket sensor in the Express Check-in lane.
- 4 Badge Print**
After check-in, the attendee's badge will be automatically assigned to one of the printers.
- 5 That's it!**
Attendees pick up their badge and go!
